HUMBOLDT AND CHURCHILL.

STATE REGISTER: The bill which I introduced to release Churchill county from paying to Humboldt the sum of \$12,000 has been and is receiving unjust criticisms, and its author unjust and uncalled for denunciations, by the Silver State, which paper is laboring under a misapprehension of the facts connected with the subject matter.

I desire to state the facts and the causes which impelled me to introduce the bill, and the reasons why I shall support it to the best of my ability and press it to a final passage, and then I will dismiss the subject, whether my course meets the approbation of the Silver State or any other paper or person or not.

At the last session several propositions were made to organize new counties along the line of the railroad. In conversation with several citizens of Humboldt, then at the capital, several, if not all, of the Humboldt delegation deemed it advisable to have the northern boundary of the county extended from Humboldt Lake along the fortieth degree of latitude, thus cutting off a triangular piece of territory, of no value whatever, except the taxable value of the railroad embraced therein, for the purpose of not only settling the vexed question of boundary between Humboldt and Churchill counties, but in order that we might be the better enabled to resist any encroachments that might be attempted on our eastern border, and thus save the rich mining district of Battle Mountain. Our delegation claimed and believed at the time that we were letting Churchill county have forty-two miles of our railroad, and demanded payment therefor. Churchill did not believe it would get forty-two miles, and hesitated long before consenting to the bill in the shape in which it was drawn up and passed. I promised Mr. Monroe, Senator of Churchill, that if it was ascertained that Churchill county did not receive forty-two miles from Humboldt by the change of boundary, I would at this session introduce a bill for relieving Churchill from a proportionate part of the \$15,000; but for this promise Mr. Monroe would not have consented to the \$15,000 provision in the bill. Churchill has paid the first installment of \$3,000. Let us inquire how many miles of railroad it received from Humboldt. From the 40th degree of latitude to the bridge crossing the Truckee at Wadsworth, is 43 1/2 miles by the railroad. Of this 43 1/2 miles, Lyon county assessed 17 1/2 miles, without dispute as to its right on the part of Humboldt, and Churchill assessed in like manner 18 miles—35 1/2 miles of which taken from the 43 1/2 miles leaves 8 miles, which is all that can possibly be claimed that Churchill received from us. Churchill has now only 28 1/2 miles of road, 2 1/2 of which Lyon county claims it gave Churchill in the adjustment of the boundary between them. Lyon county has now only 15 miles inside of the 17 1/2 miles. Under the act referred to Churchill pays to Humboldt \$600 more than it receives from all its railroad property. It has now paid for all it received, and at the rate of \$15,000 for 40 miles instead of 42. Can any fair, candid man, in or out of Humboldt exact more? Will Humboldt demand its bonds—its pound of flesh—because Churchill was bound under a mistake of facts by legislative enactment? If so, I greatly mistake the temper, and the sense of justice, equity and right of that people.

Churchill county is not able to pay this sum for that which it has not received. Does Humboldt desire to force Churchill to disorganize? I have heard this argument used: "Stick Churchill to its obligation; then extend the southern boundary of Humboldt south so as to include the 28 1/2 miles of road; this will necessarily take the removal of the county seat from Unionville to the railroad, either at the Rye Patch or Humboldt Station," etc. The Silver State would do well to inquire if this opposition in Humboldt was not put on foot by some citizens there interested in re-

moving the county seat from Unionville, and done so adroitly, cunningly and plausibly as to even entrap the strongest advocates of Unionville itself? With 28 1/2 miles of road added on our west to the 14 1/2 we now have, and including the populous portions of Churchill county, would not only make a good showing to induce the Legislature to establish the county seat on the railroad by Legislative Act, but the 173 miles of railroad in one county, and that county about out of debt, might serve to facilitate the organization of a new county, embracing the odd 73 miles of road and as much more as can be obtained from Lander. Under this view of the case I submit, will Humboldt county loose more by the passage of the bill, or the interests of Unionville and vicinity suffer more by it, than the lopping off of 73 miles for a new county and the removal of the county seat of the old one? I would suggest to the Silver State and its patrons to consider these matters dispassionately. In the meantime I will support the bill upon its merits and upon the ground of justice, without regard to any effect it may have on the question of a new county or county seat.

M. S. BONNIFIELD.

CAREER OF A WHITE SLAVE.

She Serves Two Black Mistresses and Becomes a Countess.

Louise Mulbach, in her "Letters from Egypt," tells a very romantic story about the wife of Count Benedetti, the French Plenipotentiary at the Prussian Court before the outbreak of the present war. A very rich Greek merchant, resident in Alexandria, had two black wives, whom he loved dearly, and for whose service he provided a large retinue of beautiful girls. One of his wives one day chanced to see a charming white girl, and was so pleased with her that she coaxed her husband into buying her.

The beautiful slave became a confidential servant and companion to her black mistresses, and conducted herself toward them in such a sagacious manner that she became indispensable to them. She sang to them and gossiped and frolicked so gracefully that ennuui was banished completely. She won their affections, and through them also the affection of her master, the venerable Greek merchant.

But unfortunately the black wives suddenly fell sick one day, and before nightfall they were both dead. Their disease was known to nobody, and they were hastily buried. The beautiful young slave, who had not left their side for a moment during the few hours of their illness, seemed inconsolable. She did her best, however, to assuage the grief of the ancient merchant, and in this way so endeared herself to him that he adopted her as his child and heir, since he was just a little too old to marry her. In course of time the venerable sage rejoined his swarthy wives in the other world, and the fortunate nymph came into possession of his millions. At this stage of her existence Count Benedetti, who was then only a penniless attaché to the French consulate in Alexandria, offered her his hand and heart, and having married her, with the aid of her wealth cut for himself a road to fame. In this way she who was once a slave to slaves became a star in the circles of the French world of fashion.

The Marysville Appeal thinks the shooting of Mrs. Dennison by Dougherty at Wheatland should prove a warning to single ladies who are beset by admirers, and admonish them to be on the alert, when a proposition of marriage is made, to see that they have in the language of the late lamented Dobson, "the drop on him." Society appears to be coming to such a pass that a declaration of love may become a declaration of war unless the sentiment is reciprocal. In this state of affairs it will become necessary for a lady to practice with the revolver, not only in shooting, but in rapidly "covering" her admirer with the muzzle of a six-shooter, provided she does not desire to wed him. It will be the only way to get the upper hand of these importunate suitors, who, if they cannot have a lady's heart, will in the dog in the manger spirit, put a bullet through it, that no one else may get it.
